Information and Advice

University of Bonn
Institute of Computer Science 4

Prof. Dr. Peter Martini **Prof. Dr. Michael Meier**

summer term 2018

Goals of a Lab

- Get familiar with a topic within a limited time frame.
- Work scientific and practical.
- Prepare a written report of 5-10 pages and, if required, a SW documentation.
 - Have a look at the Seminar's Guidelines.
- Submit your work to your supervisor until 30 September 2018.
 - If there is no different agreement, the final submission is done via email to your supervisor
- Prepare a presentation of your work, ideally including a demo.
- Present your work in a presentation (oral exam) of ~30 minutes: Time (~November 2018) and place TBA.
- Keep yourself informed: Read the emails of the lab's mailing list.
