

SEMINARS
SELECTED TOPICS IN
COMMUNICATION MANAGEMENT
SELECTED TOPICS IN
IT SECURITY

# INTRODUCTORY MEETING

**University of Bonn Institute of Computer Science 4** 

Prof. Dr. Peter Martini Prof. Dr. Michael Meier

Winter term 2023/24

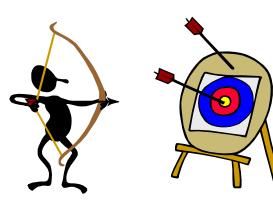

# **GENERAL INFORMATION**

### **GENERAL INFORMATION 1/3**

#### - Goals:

- Getting familiar with a topic in a limited time frame.
- Writing a good report.
- Giving a good presentation to a group.

#### – Components:

- Written report of approx. 10 pages (an (ACM) template will be provided)
- Review of ~two other reports. For this part you will use a conference management system. We will inform you on time via e-mail.
- Presentation (~30-minute talk, 15-minute discussion).
- Lots of interaction with your advisor and fellow students.

## **GENERAL INFORMATION 2/3**

### • Steps:

- Register for the seminar (until October 31<sup>st</sup> in BASIS) under one of the following module numbers:
  - Selected Topics in Communication & Communicating Devices: MA-INF 3209
  - Selected Topics in IT Security: MA-INF 3317
- This is your first important deadline! Care about the registration!
- Initial meeting (today).
- Structure your work, write the report, review other's reports, prepare the presentation (guided by your advisor).
- Presentations ("Blockseminar", all presentations are given within one day:
   January19<sup>th</sup> 2024 presence most likely this room).

## **GENERAL INFORMATION 3/3**

#### Seminar Websites:

- Seminar MA-INF 3209 "Selected Topics in Communication Management" https://net.cs.uni-bonn.de/wg/cs/teaching/wt-202324/sticm/
- Seminar MA-INF 3317 "Selected Topics in IT Security"
   https://net.cs.uni-bonn.de/wg/itsec/teaching/wt-202324/stits/

# **TIME SCHEDULE**

# TIME SCHEDULE (YOUR DEADLINES)

Introductory meeting Today:

October 31st: Registration in BASIS ends

November 5<sup>th</sup>: Document outline

literature research is done at this point

you already know what you want to write in each section

November 12<sup>th</sup>: Complete report draft

final report, as you would want it to be graded

correct citation/referencing, no grammar or spelling mistakes

November 26<sup>th</sup>: You receive comments on your report from your advisor

December 10<sup>th</sup>: Complete report, ready for peer-review

you read, understand and comment on two other reports

You receive reviews from your classmates and your supervisor.

December 22<sup>nd</sup>: Reviews done

January 7<sup>th</sup>: Complete report, final version

January 12<sup>th</sup>: Slide set for your presentation

January 19th: Final presentation

4w

>4w

2w

#### REGULATIONS AND MARKS

- You will receive a mark for the seminar based on:
  - the written report (substance, presentation, language, ...)
  - the reviews (understanding, quality of comments, ...)
  - the presentation (scientific presentation, reduction to main aspects, understanding, ...)
  - the discussion (ability to explain, understanding)

#### REGULATIONS AND MARKS

- The "Examination Rules for the Masters Degree Course in Computer Science" (i.e., the unofficial translation of the "MaPO", January 2012) say:

§ 11(5): "Examination results in seminars will relate, as a rule, to written papers and oral discourses relating to partial areas of the subject matter dealt with in the seminar."

§ 16(3): "Seminar discourses document the candidates' ability to present scientific results in a comprehensible manner and to explain them in a discussion."

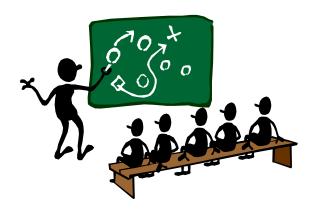

## **SEMINAR WINTER TERM 2023/24**

- Questions?
  - Organizational:Matthias Wübbeling

cs4-seminars-labs@lists.iai.uni-bonn.de

About your topic: Your advisor

- Dates:
  - Presentations:Jan 19<sup>th</sup> 2024
  - Submission of written report (final):
     Jan, 7<sup>th</sup> 2024

These are firm dates!

- Main literature sources:
  - Your advisor will send you an email containing further information about your topic.

### **REVIEW PROCESS**

**Peer review** is the evaluation of papers by other researchers to the writer of the work to maintain quality (and improve the paper).

(1) Write your paper

(4) Submit reviews

(2) Submit paper

(5) Receive reviews

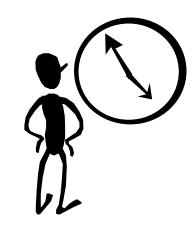

(6) Improve your paper

# **ADVICE: DEADLINES (1/2)**

- Deadlines have to be kept!
  - Official deadlines (see previous slide on deadlines)
  - Any appointments and deadlines agreed upon with your advisor, e.g.,
    - first meeting
    - weekly meetings
    - intermediate report deadlines
  - Time management is important!

# **ADVICE: DEADLINES (2/2)**

- A complete version is meant to be complete!
  - Submit a complete report without empty sections or paragraphs.
  - Include a full list of proper references and sources.
  - Make sure your text is free of spelling and grammar mistakes.

# **ADVICE: GUIDANCE (1/2)**

- Contact your advisor:
  - Let your advisor approve your work.
  - Discuss the structure of the report with your advisor.
  - Discuss your presentation slides with your advisor.
  - Ask your advisor for help if you have questions or want to improve your understanding of the topic or you are unsure about proper citing/referencing.

# **ADVICE: GUIDANCE (2/2)**

- Consider the feedback you receive:
  - Take notes during the meetings with your advisor.

- The suggestions by your advisor are meant to improve your work.
   However, in general only you are responsible for your work.
- Exception: change request by your advisor. Ignoring a change request may result in a failed seminar.

## **ADVICE: GUIDANCE**

#### Guideline for the Composition of Master Theses, Seminar Papers and Lab Reports

Rheinische Friedrich-Wilhelms-Universität Bonn Institut für Informatik IV

Prof. Dr. Peter Martini and staff

28.03.2012

#### 1 Why?

This guideline for composing master theses, seminar papers and lab reports was inspired by the observation that, in the process of their work, students often repeat the same mistakes that could easily be avoided. On this background, the idea for this guideline was born with the intention to reduce your (and also, of course, our) time input, and provide you with a set of techniques for composing scientific texts which have proven very effective for improving the presentation of contents as well as as their comprehensibility for the reader.

#### 1.1 The Purpose of a Lab Report

Preparing the report is an inherent part of every lab offered by our work group during the main study period. The report should give the reader a detailed picture of

- which task was tackled during the practical exercises,
- which challenges had to be coped with in order to accomplish the task,
- in what way and how well these challenges were mastered.

The report is **not a protocol of procedures**, i.e. it should not provide a detailed listing of all steps made in order to solve the problem. It is rather a documentation of d solution and should also motivate why this particular solution was chosen. ppropriate to also mention other possible solutions that were tried but lateron for good reasons. However, the description of the implemented solution must

#### Purpose of a Seminar Paper

aper should summarize in short the vital aspects of a given subject. Since he text sources usually outnumbers the admitted paper volume by far, it is the author to reduce the sources to the relevant facts. The paper should the author's own words and never be literally copied from the original text. ticularly applies to text sources in foreign languages: literal translations sy to recognize for the simple reason that they are difficult to read; apart w simply miss the point of the matter. One of the excuses for using literal that the original text could not be understood. If this is the case, rather utor for help – that is what he is there for. Other popular excuses like tas so excellent, I could not have said it better certainly do not require

#### rpose of a Master Thesis

MaPO (conditions of study) of 2008 [MPO08], the Master thesis is ual quotation from the German language MaPO)

Die Masterarbeit ist eine schriftliche Prüfungsarbeit, die zeigen g Prüfling in der Lage ist, innerhalb einer vorgegebenen Frist ein dem Gebiet des Studienganges selbständig nach wissenschaftlichen u bearbeiten, einer Lösung zuzuführen und diese angemessen

inglish meaning would be:

faster thesis is expected to show that the student is capable utly applying scientific methods to a problem in the field of moe within a set period of time, proving his/her aptitude for

reviewed on the basis of the written elaboration handed in by the for the student's own benefit it is recommended to focus not only also on an appealing form of their presentation. Normally, the influenced by formal aspects of the thesis. If, however, we have to en two possible gradings, the form of presentation can be of vital

# ADVICE: CITING AND COPYING (1/2)

#### – Goal of the seminar:

Describe a topic in your own words, based on existing scientifically valid sources.

### Citations and figures:

 Clearly indicate citations, e.g., when you cite opinions of others or results obtained by others.

- Do not cite excessively!
- When "citing" figures:
  - reference the original work,
  - draw the figures yourself, and
  - include only relevant parts.

# ADVICE: CITING AND COPYING (2/2)

- Work scientifically or fail the course:
  - Copying (even if slightly modified or rearranged)
     without citing the original work leads to a failed seminar.
  - Simply translating from other works is equal to copying.
  - Excessive citing may lead to a failed seminar.
  - Know the difference between citing and referencing.
    - If you don't: ask your advisor!

ADVICE: AVOID PLAGIARISM (1/2)

- What is plagiarism?
  - To steal and pass off the ideas or words of another as one's own. (Merriam-Webster Online Dictionary)
  - Use another's production without crediting the source.
  - To commit literary theft.
  - Present an idea or product derived from an existing source as new and original.

ADVICE: AVOID PLAGIARISM (2/2)

- How do I avoid it?
  - Do not copy, paraphrase, translate, or summarize
     from any source without documenting adequately and truthfully.
  - Do not quote excessively, such that the quoted material makes up significant portions of your work.
     This applies even if you give credit!
- Consequences
  - If plagiarism is in evidence, you fail the lecture, seminar, thesis, etc.
  - Plagiarism may become expensive (see MaPO):

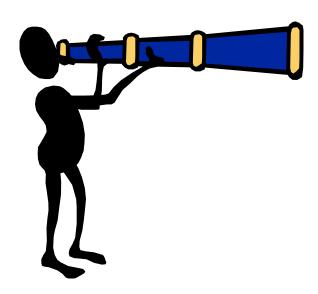

§ 13(9): "Any intentional violation of a regulation of these examination rules [...] will be regarded as an offence. Such an offence may be punished by a fine of up to 50,000 Euros."

# ADVICE: SOURCES, REFERENCES AND STYLE (1/2)

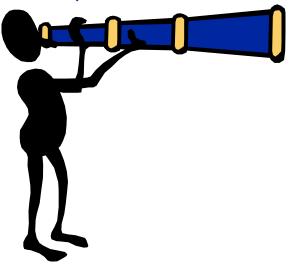

- Use the LaTex document class for the final report.
  - Downloadable from the websites of the seminars.
- List of references:
  - Give a complete list of all sources used.
    - Author and title.
    - Type of publication.
    - Date.
    - For online sources: state when you last checked the contents.
  - When in doubt, ask your advisor!

# ADVICE: SOURCES, REFERENCES AND STYLE (2/2)

- Choose sources carefully:
  - Use the sources indicated by your advisor, and look for further sources yourself.
  - Be aware that some sources may be unreliable or change frequently (common example: to cite or not to cite a Wikipedia article).
  - When in doubt, again, ask your advisor!

### YOUR "TAKE-HOME" MESSAGE

- Read your e-mails regularly
  - We advise you to use your @cs.uni-bonn.de address.
  - Use another → you are responsible that e-mails really reach you.
- Keep dates and deadlines in mind
  - Don't miss deadlines!
- Problems? Contact your advisor
  - In time!
- Do proper time management
  - Start early!
- Don't plagiarize
  - We will find out ...
