There’s a mailing list for the lecture: network-security@lists.iai.uni-bonn.de

You will be subscribed with the address you used to register.

Use it to...

- … ask questions about the lecture or the tutorials (orga and content)
- … help and discuss with your fellow students

Don’t use it to...

- … publish solutions to the assignments
ASSIGNMENT SHEETS

- 5 sheets
- 10 points per sheet
- Admission to the exams is granted after achieving 25 points
- Theoretical and practical tasks
- Solutions will be discussed during the tutorials
  - ...but will **not be published** on the web site!
ASSIGNMENT SHEETS: SUBMISSIONS

- Submission groups of 2-3 students
- You can find group partners during the first tutorial
- Submissions have to be pushed to the NetSec GitLab
  - There will be a quick demo during the first tutorial
ASSIGNMENT SHEETS: PLAGIARISM

- No sharing of solutions between groups
  - Duplicate or too similar solutions will be counted as plagiarism for both groups
- No C&P from web sites, books, papers, whatever
- Cite your sources in a scientifically sound manner

- Plagiarism in **one task** means **0 points** for the **whole sheet**!
- Regularly check the web site and the mailing list for announcements
- Use the mailing list for questions and discussions
- Register for the tutorials
- You must get at least 50% (i.e. 25 points) of the points from the sheets
- Work and submit in groups of 2-3 students
- Don’t plagiarize! Ever!
A TASTE OF THINGS TO COME...

- GitLab demo
- SecLab demo
- Linux command line basics
- NetSec tools: Wireshark, tcpdump, nmap, Python (libraries), ...
Do you have any questions?
